Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 23rd September 1938.

First Forecast of the Winter Rice Crop of Bengal, 1938-39.

(Note.—On an average of the five years ending 1936-37, the area under winter rice in Bengal has represented some 20·5 per cent. of the total area under winter rice in India.)

Character of the season.—The weather was generally dry in March and April but heavy and incessant showers fell from May onwards and was soon after followed by flood. The sowings of the broadcast paddy and preparation of seed-beds were accordingly delayed and interfered with in Eastern and Northern Bengal. The early flood caused damage to and interfered with the growth of the broadcast winter paddy in parts of the North and East Bengal districts. In July the transplanting operation was at times suspended specially in North and East Bengal districts owing to flood and incessant rainfall. The Presidency Division also suffered considerable damage due to high flood. In Burdwan Division, however, the effect of weather

has been favourable for the transplantation and growth of the plants although considerable area could not be transplanted in Midnapore due to insufficient rainfall at the beginning. On the whole, the season has been fairly favourable for the mid and high land crop. The present condition of the crop is fair.

Acreage.—According to the figures returned by the District Officers, the total acreage under winter rice is 15,735,900 acres as compared with 15,798,800 and 15,922,500 acres in the corresponding and final forecasts of last year respectively.

Outturn.—From the summary of the district returns appended it will be seen that two districts report a normal crop of 100 per cent., 17 districts a crop varying from 97 to 75 per cent. and the rest below 70 per cent. of the normal.

According to the above estimates, the provincial outturn works out to 80 per cent. as against 86 and 94 per cent. of the normal estimated in the corresponding and final forecasts respectively of last year.

M. CARBERY,

Director of Agriculture, Bengal.

24-Parganas.	840,800	779,300	888,800	100	92	June. Normal ..	July. Normal ..	Increase in area is due to gradual spread of cultivation in the Basirhat and Sundarban. Weather has been favourable in Basirhat as Barrackpore owing to excess rain. Considerable damage caused by flood in Basirhat where 10,000 acres of broadcast winter paddy land was destroyed.
Nadia ..	850,090	280,000	300,000	100	50	May. Normal	June. Normal ..	Increase in area is due to favourable weather condition at sowing time but there was continuous heavy rain afterwards. The outturn expected to fall much below the normal owing to severe damage caused by high flood.
Murshidabad.	416,200	483,000	436,500	111	97	June ..	June to July. Normal in Sadar and Lalbagh but early in Kandi and Jangipore.	Increase in area is due to timely rainfall. Effect of weather on the cultivation and growth of the crop has been favourable on hill lands. Damage caused by hill flood and excessive rain.
Jessore ..	434,000	367,500	472,000	83	40	Latter part of April and beginning of May. Late.	July. Normal ..	Insufficient rainfall delayed the sowing. Incessant rainfall followed by heavy flood afterwards has brought about destruction of the crop to the tune of 60 per cent. Increase in area is due to the fact that some <i>Bhils</i> in Magura subdivision which were hitherto regarded as unculturable lands have since been silted and brought under cultivation.
Khulna	905,300	790,000	750,000	83	67	Beginning of June. Normal.	Latter part of July	Decrease in area is due to insufficient rainfall at the time of sowing. Effect of weather on the cultivation and growth of the crop has been bad owing to incessant rain and flood. About 25 per cent. was damaged due to flood and insect pests.
Burdwan	657,100	514,100	547,000	92	92	Middle of June. Normal.	Middle of July. Slightly late.	Increase in area is due to better rainfall though slightly late. Effect of weather on the cultivation and growth of the crop has been fair.
Birbhum	643,600	595,100	626,400	92	100	Beginning of May. Normal.	Beginning of July. Normal.	Increase in area is due to early monsoon. Effect of weather on the cultivation and growth of the crop has been favourable.
Bankura	440,000	396,700	411,200	100	92		July. Normal ..	Increase in area is due to utilisation of fallow lands. The weather was not favourable at the sowing time but it has become favourable afterwards. Effect of weather has been good for the growth of the crop.
Midnapore	1,537,100	1,408,000	1,200,700	133	83	Middle of June. Normal.	Middle of July. Late.	Decrease in area is due to insufficient rainfall at the beginning of the year. Effect of weather is not particularly satisfactory. In the eastern and southern part of the district, a bumper crop is expected but in the central, northern and western parts, the outturn expected below normal due to unfavourable weather condition.
Hooghly	411,800	270,000	278,000	83	83	Middle of July. Late.	Beginning of August. Late.	Increase in area is due to sufficient rainfall at the sowing and transplanting time. About 8 annas damage is reported in Arambaj subdivision.
Howrah	92,000	101,500	101,000	92	83	End of June. Late	End of July. Late	Owing to inclement weather conditions the prospects are not so good.
Rajshahi	822,700	719,000	627,000	75	67	April. Normal	July. Normal ..	Decrease in area is due to transfer of Nandigram police-station to Bogra district as well as to untimely and excessive rainfall at the time of transplanting. Paucity of rainfall at the sowing time and excessive rainfall followed by floods afterwards hampered the cultivation, transplantation and growth of the crop to a large extent. Damage is estimated at 4 annas.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1938.

Preliminary forecast of the *Bhadol* Crops of Bengal, 1938-39.

Note.—On an average of the five years ending 1936-37, the area under autumn rice in Bengal has represented some 7·7 per cent. of the total area under rice in British India.)

Character of the season.—Rainfall in February was favourable for preparatory tillage and early sowings in East and North Bengal. In March and April the rainfall was scanty and the operations received a setback. Rain as badly needed for the growth of the crops. Occasional showers in the first half of May improved the general prospects. Later a heavy and incessant showers from the end of May onwards caused waterlogging of fields and affected the growth of the crops. Soon after sudden and early rise of rivers necessitated premature harvesting of autumn paddy. Conditions continued to be generally unfavourable. Wide areas in the Rajshahi,

Dacca and Presidency Divisions and in the district of Noakhali have been totally destroyed either by incessant rainfall or heavy floods. The season has thus been a bad one for the *bhadol* paddy.

Acreage.—The total acreage sown with different *bhadol* crops this year is reported to be 6,394,300 acres as against 6,605,600 and 6,616,500 acres, respectively, in the corresponding and final forecasts of the last year.

Of this, the area under autumn rice is estimated at 5,708,400 acres as against 5,855,100 and 5,864,500 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadol* crops for the Presidency works out at 63 per cent. of the normal this year as against 82 and 83 per cent., respectively, in the corresponding and final forecasts of last year. Autumn rice is estimated to yield an outturn of 60 per cent. of the normal for the province this year as against 82 per cent. both in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

(9) Leave on medical certificate may be granted to a servant not in permanent employ, when he is in superior service, up to one-thirtieth of the period spent on duty minus the amount of any such leave that may have already been taken by him.

(10) In the case of a servant in superior service not in permanent employ who is subsequently appointed to a permanent post, the leave admissible under rule (8) in respect of his permanent service will be reduced by such leave as may have already been enjoyed by him under rule (9) during his previous temporary service.

A

BILL

TO

Regulate (restrain) polygamy in British India.

WHEREAS it is expedient to regulate polygamy in British India; It is hereby enacted as follows:—

1. This Act shall be called the Polygamous Marriage Regulating Act, 193 .

It shall come into force on such date and in such provinces as the Governor General in Council may, by notification in the Gazette of India, appoint.

The District Judge includes the High Court in its ordinary original jurisdiction.

2. It shall apply to all marriages celebrated in British India, and shall apply to all persons domiciled in British India.

3. (1) No one shall marry during the lifetime of his wife or during the subsistence of a valid legal marriage with her, except in cases mentioned in section 4.

(2) Anyone purporting to marry in contravention of the above sub-section shall be liable to an imprisonment of six months, and all such marriages shall be deemed to be void.

4. (1) A male may marry, if otherwise permitted under any law or custom for the time being in force, during the lifetime of his wife in case—

- (a) where she is permanently invalid; or
- (b) insane; or
- (c) she is suffering from an incurable or loathsome disease; or
- (d) unchaste; or
- (e) where the wife has left the protection of the husband without reasonable and sufficient cause; or
- (f) she is unfit habitually to fulfil her marital obligations; and where such fulfilment would result in grave injury to her.

(2) A male before marrying under the above sub-section shall obtain permission from the District Judge of the district where the husband and wife have last resided together.

5. (1) Any male applying for permission under section 4(2) to the District Judge, shall state clearly the reasons and the grounds of exemption enabling him to marry, and verify it in the manner prescribed in the Civil Procedure Code.

(2) A copy of the petition shall be served personally upon the wife, or if she is a minor, to such guardian for marriage under her personal law who could have given her away in marriage.

(3) A copy of the petition shall also be served upon the Government Pleader of the district and the Advocate General who may, if he likes, appear and make his submissions to the Court.

(4) The District Judge, after giving reasonable opportunity to the wife to appear and to oppose such application for permission, may, if he is satisfied that a proper case is made out by the husband, grant the necessary permission. Such certificate shall be conclusive evidence of conditions enabling the applicant to marry under section 4(2).

(5) The decision of the District Judge shall be final and shall under no circumstances be revised by the High Court.

(6) A register of such certificates given under section 5(4) shall be kept permanently in the Court of the District Judge, and shall be open to inspection.

(7) The Governor General in Council may, by notification in the Gazette of India, exempt any class or classes from the operation of this Act.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to regulate (restrict) polygamy in British India. It is quite true that at the present moment the percentage of polygamous marriages is very small, but the very possibility that the husband can marry again during the lifetime of his wife without any reasonable and probable cause lowers the position of women in this country. In certain exceptional cases polygamy is permitted under this Bill but checks have been provided.

A

BILL

TO

Amend the Hindu Women's Rights to Property Act, 1937, and to make certain other provisions.

WHEREAS it is expedient to amend the Hindu Women's Rights to Property Act, 1937, for the purposes hereinafter appearing; It is hereby enacted as follows:—

1. (i) This Act may be called the Hindu Women's Rights to Property (Further Amendment) Act, 1938.

(ii) It shall come into force on such date as it receives the assent of the Governor General and sections 4 to 10 both inclusive shall have retrospective effect as if they had come into force on the 14th day of April, 1937, and it shall extend to the whole of British India.

2. Notwithstanding any rule of Hindu Law, custom or statute, contrary to or inconsistent with the provisions of this Act, the following sections shall apply.

3. Any property that has already come or shall hereafter come to a Hindu woman, either by inheritance, succession or partition, shall be her absolute property and she shall be competent to dispose of it as a full owner.

4. Such property of a woman, on her dying intestate, shall be inherited in the following order:—

(i) when she dies leaving her own daughter or daughters, the daughter or daughters shall inherit the same solely or in equal shares separately;

(ii) when she dies leaving no daughter, it shall descend to her son or sons in equal shares separately;

(iii) when she dies leaving no daughter or son of her own, it shall descend to her husband;

(iv) when she dies a widow, leaving no daughter or son, the property will devolve upon her husband's heirs separately;

(v) when she dies before her marriage, it will devolve upon the next heir of the person from whom she inherited it.

5. When a Hindu dies having at the time of his death a joint interest in a Hindu family property,

- (a) leaving no male issue, his widow shall succeed to the interest of her deceased husband in such property and shall also be entitled to claim partition thereof;
- (b) leaving a male issue or issues, the widow shall be entitled to a share equal to that of a son and shall also be entitled to claim partition thereof.

Explanation.—A Hindu governed by the Dayabhaga School of Hindu Law shall not be deemed to have a joint interest in a Hindu family property for the purposes of this Act.

6. When a Hindu dies intestate, having at the time of his death any separate property, other than a joint interest in a Hindu family property,

- (i) leaving no male issue, his widow shall succeed to the property of her deceased husband and shall also be entitled to claim separate possession by partition thereof, if it has not been divided;
- (ii) leaving a male issue or issues, the widow shall be entitled to a share equal to that of a son and shall also be entitled to claim separate possession by partition thereof.

7. The widow of a predeceased son shall inherit in like manner as a son if there is no son surviving of such predeceased son, and shall inherit in like manner as a son's son if there is surviving a son or son's son of such predeceased son. The same provision shall apply *mutatis mutandis* to the widow of a predeceased son.

8. The provisions of sections 5, 6 and 7 of this Act shall not apply to an estate which, by a customary or other rule of succession or by the terms of the grant applicable thereto, descends to a single heir or to any property to which the Indian Succession Act, 1925, applies.

9. Nothing in sections 5, 6 and 7 of this Act shall apply to the property of any Hindu dying intestate before the 14th day of April, 1937.

10. For the purposes of this Act, a person shall be deemed to die intestate in respect of all property of which he has not made a testamentary disposition, which is capable of taking effect.

STATEMENT OF OBJECTS AND REASONS.

Under the Hindu Law as it stands at present, a Hindu wife is entitled to succeed to her husband's property, if he is not a member of a joint family and dies without male issue. A Hindu daughter is also entitled under the present Hindu Law to succeed to her father's property, if he dies leaving no son or wife and no other coparcener with whom he was joint at the time of his death. A Hindu woman also gets a share on partition between her sons or between her husband and a son. The

law of the Madras School, however, does not allot her a share on partition but allows only a provision to be made for her maintenance. The recent legislation has done some justice to a Hindu widow by improving her rights in her husband's property after his death. The property which a Hindu woman gets either by inheritance, succession or on partition, whether under the Hindu Law or under the recent enactment, is, however, a limited interest which, on her death, passes not to her heirs but to the heirs of her husband, however remote (and except a daughter under the Bombay School), whether the property is inherited by a wife, daughter or mother of a Hindu, she can only enjoy the income of it but cannot dispose of the corpus, while a daughter's son and a remote male heir of the last full owner on his succeeding to the property becomes its full owner.

With a view to enlarge her restricted rights to property by section 3 of the Bill, it is proposed that the property which a Hindu woman gets under the present law should be her absolute property like that of a male heir, instead of the limited interest which the law gives her now. It will thus be seen that this section only enlarges the nature of the interest which she possesses under the existing law.

Section 4 of the Bill seeks to define the order of succession to such absolute estate which a Hindu woman would acquire under section 3.

The proposed order of succession is more equitable and simpler to work than the complicated order of succession to *Stridhana* property, which makes a distinction between unmarried and married daughters and unprovided and provided daughters. On the whole it is in consonance with Hindu ideas and sentiments of devolution of property among members of the same family.

Sections 5 and 6 of the Bill do not in any way change the existing law embodied in section 3 of the Hindu Women's Rights to Property Act. Although the Act has been amended, it still requires some verbal modifications. With this object, section 3 of the Act has been recast to remove certain ambiguities arising from the expression "Same share as a son" at the end of section 3 (i).

In several systems of law in European countries also, the rights of women in property at one time were restricted, which, however, have been subsequently enlarged by legislation. In view of the modern conditions of life, it is but just and equitable that the rights of Hindu women to property should be similarly enlarged by converting their limited interest into absolute ownership.

A

BILL

TO

Declare illegal polygamous marriages among Hindus.

WHEREAS it is expedient to forbid and declare illegal a marriage contracted by a Hindu with another woman in the life-time of his wife; It is hereby enacted as follows:—

1. (i) This Act may be called the Hindu Polygamous Marriage Restraint Act of 1938.

(ii) It extends to the whole of British India and shall come into force on such date as it receives the assent of the Governor General.

2. Notwithstanding any rule of Hindu Law or custom to the contrary, a marriage contracted by a Hindu after the commencement of this Act with another woman in the life-time of his wife shall be void, and the provisions of sections 494 and 495 of the Indian Penal Code shall apply to such marriage:

Provided that this section shall not apply to a marriage contracted by a Hindu, after dissolution, where permissible by law, of his marriage with his former wife has been granted by competent authority or the marriage has been otherwise validly dissolved, where, by law or custom, a dissolution of marriage is permissible.

3. The provisions of this Act shall apply to a Hindu even after his conversion to another religion.

STATEMENT OF OBJECTS AND REASONS.

Although polygamy has been looked upon with disfavour by Hindu jurists and society, the Hindu Law does not prevent male persons from marrying any number of wives, irrespective of their having one or more wives alive. Flagrant cases of the abuse of this liberty given to men under the Hindu Law have come to light during recent years. In order to prevent the growth of such an evil, it is desirable to restrain polygamous marriages among Hindus by law.

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 15th October 1938.

**Second Forecast of the Sugarcane Crop of
Bengal, 1938-39.**

(*Note.*—On an average of the five years ending 1936-37 the area under sugarcane in Bengal has represented some 7·5 per cent. of the total area under sugarcane in British India.)

Character of the season.—As reported in the first forecast a spell of drought shortly after the planting time followed by heavy and incessant rainfall adversely affected the growth of the crop. Subsequent high flood has done damage to the crop in the Presidency Division and in a number of districts in North and East Bengal. The present prospects are fair.

Area planted.—The total area planted with the crop is estimated to be 300,700 acres this year as against 290,100 acres reported in the corresponding and final forecasts of last year. The increase in area as compared with the last year is due to favourable weather conditions at the sowing time and to increased price of *gur* and jute restriction propaganda.

Outturn.—According to the estimates of the district officers, the average outturn of the crop for the province this year works out at 75 per cent. of the normal against 88 and 84 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the sugarcane crop is estimated at 75 per cent. as against a ten years' average of 86 per cent. This means that the condition of this year's crop is equal to about 87 per cent. of the ten years' average.

M. CARBERY,

Director of Agriculture, Bengal.

Nadia ..	10,000	11,000	11,100	83	50	February and March. Normal.	Effects of weather are not satisfactory; growth affected due to heavy and continuous rain. Severe damage anticipated owing to high flood.
Murshidabad ..	4,300	7,500	7,700	96	62	April and May ..	The decrease in area as compared with the estimate in the first forecast is due to revision of estimate in the Jangipur subdivision. The weather has not been so favourable owing to drought at the planting time and the heavy showers of rain and high flood afterwards.
Jessore ..	5,400	3,700	3,700	80	60	April. Normal ..	The weather has been unfavourable and its effects on the cultivation and growth of the crop are unsatisfactory.
Khulna ..	500	1,100	1,000	83	50	April. Late ..	Decrease is due to drought at the sowing time. Excessive rain has impaired the growth of plants due to overgrowth of weeds.
Burdwan ..	11,600	8,600	9,600	83	92	Middle of March. Normal.	The weather has been favourable and its effects on the crop satisfactory.
Birbhum ..	9,100	8,300	8,500	92	67	May. Normal ..	The weather has subsequently been favourable for growth.

Midnapore ..	8,000	5,600	4,600	100	83	February to April. Normal.	The decrease in area as compared with the normal is due partly to insufficient rainfall and partly to fall in the price of gur. The weather has since become favourable and its effects on the growth of the crop good.
Hooghly ..	3,000	1,900	1,900	83	92	Middle of April. Normal	The weather has been favourable.
Howrah ..	3,800	2,700	2,800	92	83	Ditto ..	The weather has not been very favourable due to drought at the beginning and heavy rains later on. The effects of weather on the growth of the crop fair.
Rajshahi ..	7,500	18,000	19,500	83	67	December. Normal ..	Drought followed by an incessant rain afterwards was very unfavourable for the cultivation and growth of the crop.
Dinajpur ..	29,500	45,000	49,000	90	90	April. Normal ..	The weather has been favourable for the growth of the crop.
Jalpaiguri ..	5,000	5,300	5,600	83	83	Middle of February. Normal.	The weather was not good.
Darjeeling ..	300	200	200	92	92	February. Normal ..	The weather and its effects on the growth of the crop are fair.

Bogra ..	4,000	4,000	4,500	80	75	January. Normal ..	Increase in area is due to high price of gur. The weather has been unfavourable. Drought at the beginning followed by constant rain from June affected the growth of the crop.
Pabna ..	4,000	5,000	5,500	83	75	April. Late ..	The increase in area is due to increased price of gur and jute restriction propaganda. The weather has not been favourable due to excessive rain and high flood.
Malda ..	300	4,000	3,800	83	17	January. to March. Normal.	The increase in area as compared with the normal is due to propaganda work. The weather has not been favourable.
Dacca ..	19,000	36,000	33,300	82	54	November for low lands; January and February for high lands.	Decrease of area as compared with the last year is due to low price of sugarcane and gur at the sowing time. The weather has been favourable at the time of plantation though drought checked the growth of the plant to some extent at its early stage. Floods at the subsequent stage affected the growth of the crop.
Mymensingh ..	16,400	35,000	39,200	75	65	February. Normal ..	Excessive rainfall retarded the growth of the plants.
Faridpur ..	6,700	8,000	9,900	75	75	November to March ..	The weather has not been favourable.
Bakarganj ..	18,200	38,000	39,000	75	80	January. Normal ..	The increase in area as compared with the normal is due to propaganda for jute restriction. The weather during planting time was favourable but drought in March and April and subsequent heavy rainfall and floods have affected the growth of the crop. Attack by borer is reported from different centres.
Chittagong ..	6,000	6,000	6,000	90	80	February and March. Normal.	The weather has been favourable.
Tippera ..	900	2,800	2,300	92	75	January to April ..	The weather has been good at planting time but not favourable later.

Resolution on the report on the administration of the Jail Department of the province of Bengal for the year 1937.

GOVERNMENT OF BENGAL.

HOME DEPARTMENT.

Jails.

CALCUTTA, THE 11TH OCTOBER 1938.

RESOLUTION—No. 3906H.J.

Read the report on the Administration of the Jail Department of the province of Bengal for the year 1937.

1. The jails in the province continued to be overcrowded, but the measures described below resulted in an improvement of the general position. Towards the close of the year advantage was taken of the departure of His Excellency Sir John Anderson to order the release of a number of old and infirm convicts with short sentences and prisoners convicted of non-heinous offences, who had a comparatively short time still to serve. The number released under these orders was 2,811. In addition, the new Central Jail at Dum Dum was brought into use by stages and was approaching completion at the end of the year, and the temporary jails at Dum Dum, Hijli and Berhampore were closed down, except for small maintenance parties, or parties of convicts employed for short periods as convict-servants, in connection with detention camps. The total registered capacity of buildings of a permanent character is now equal to the numerical demands of the population, but the continued presence of terrorist convicts, and of a large number of prisoners awaiting trial, which is still a feature of the situation, makes local overcrowding unavoidable.

2. The number of juvenile and adolescent convicts is an indication that, if a decrease in crime and in the jail population is to be looked for, adequate attention must be paid to the proper treatment of young persons. This is a matter which is already engaging the

attention of the Ministry, and a scheme for the extension of the Bengal Children Act and for the establishment of new and larger Reformatory and Industrial Schools is under examination. The existing institutions are doing admirable work, but are inadequate to deal with the problem.

3. The Borstal School at Bankura although overcrowded maintained the high standard of past years. The education given there is normally of the primary standard supplemented by vocational or industrial training, but boys who are fit for higher education are coached up to the Matriculation standard, and during the year one boy passed the Matriculation examination. The special sections with educational facilities started in the Presidency and Alipore Central Jails, were continued with good results, and an experienced officer of the Education Department has been asked to report on the future organization of education for adolescent prisoners in these and other jails. He will advise what permanent staff is necessary, and the terms or conditions on which it should be recruited. In addition advantage will be taken of the visit of the Director of Public Instruction to Europe for that officer to visit special schools dealing with the juvenile delinquency with a view to adopting suitable features for introduction in Bengal.

4. Government note with regret that the admission of short-term prisoners with sentences not exceeding one month remained as high as before, and that no less than 10,000 persons were sentenced to simple imprisonment during the year. So far as the Jail Department is concerned prisoners of these classes represent a dead loss. The Administration has to feed and maintain them, it can receive no return whatever in the form of remunerative labour, and can seldom, if ever, produce beneficial effects either physically or mentally upon the persons so dealt with. Such prisoners contribute to over-crowding, and are a bad influence inside the jail.

5. There was a further decrease in most districts in the average period of detention of prisoners awaiting trial, but improvement may still be looked for in the districts of Birbhum, 24-Parganas, Nadia, Jessore, Rajshahi, Dinajpur, Bogra, Dacca, Faridpur and Bakarganj.

6. Government note with pleasure that the discipline among the warder-staff was satisfactory, and that the number of departmental punishments decreased. Bengalee candidates are coming forward, and are being recruited in increasing numbers as warders.

7. Under the prevailing conditions of overcrowding, combined with the presence of a large proportion of short-term prisoners in the jails, the problem of finding employment for the jail population is difficult. Of the daily average of 17,615 convicts under sentence of labour, work was found for 15,770 or 89 per cent., but much of this work was unremunerative. Only 35 per cent. could be employed on jail manufactures, and the net profit fell to Rs. 2,59,924 against Rs. 3,16,335 in the preceding year.

8. Government have read with pleasure the names of those officers who

have been commended by the Inspector-General of Prisons, Bengal, in his report, and take this opportunity to record their appreciation of the services rendered by Lt.-Col. M.A. Singh, I.M.S., as head of the department during the year.

9. Since the close of the year under review Government have issued a questionnaire to the Boards of official and non-official visitors and to members of the Legislature calling for opinions and suggestions on all important points in the prison administration. Answers have been received and are under examination with a view to the introduction of reforms and improvements.

By order of the Governor,

R. H. HUTCHINGS,

Joint Secy. to the Govt. of Bengal.

Amendments.

Page 51—Rule 135A.—Substitute the following for rule 135A, as inserted by correction slip No. 70, dated the 14th June 1930:—

“The following rule lays down the accounts procedure for the incorporation of general charges in the Stock Accounts, etc.:—

An additional sub-head of stock should be opened, known as ‘Storage’ and a new term ‘Storage charges’ (as distinct from supervision charges mentioned in paragraph 72 of the Public Works Accounts Code). The sub-head ‘Storage’ will be debited with all expenditure incurred, after the acquisition and delivery of stores at the godown, on work charged establishment employed on handling and keeping initial accounts, the custody of stock and the maintenance of the store godown or yard, etc., etc. It will be credited with the recoveries to be known as ‘Storage charges’ made on the basis of a storage rate to be levied on all issues of stock. This storage rate will be fixed annually by the authorities of each division or subdivision on the principle that the total estimated annual expenditure on storage is, as far as possible, recovered from the issues likely to be made during the year. The balance under the head ‘Storage’ at the end of each year will be required to be finally adjusted on closing the accounts of that year, as a surplus or deficit, *i.e.*, as profit or loss according as it is a *minus* or *plus* balance and shall not be carried forward to the following year.”

11. (1) Any person whose name is included in the Register of Registered Ayurvedic Practitioners and who is not disqualified for election to the Council under section 4 may be nominated as a candidate for election under clause (b), clause (d) or clause (h) of section 2.

(2) Such nomination of each candidate shall be made in writing with complete particulars required on a separate nomination paper in Form II in the Appendix, which shall be supplied by the Returning Officer concerned on application.

(3) The nomination paper of each candidate nominated to represent any of the electorates mentioned in clause (b), clause (d) or clause (h) of section 2 shall be subscribed by two qualified electors of the particular electorate concerned, one as proposer and the other as seconder:

Provided that no elector shall subscribe, whether as proposer or seconder, more nomination papers than the number of vacancy or vacancies to be filled at the particular election by the electorate to which he belongs.

(4) The nomination paper shall be subscribed also by the candidate nominated as assenting to the nomination and shall be forwarded by post or otherwise to reach the Returning Officer not later than the latest date and time specified by him thereon for its return.

12. On receipt of each nomination paper the Returning Officer shall forthwith endorse thereon the date and hour of its receipt.

He shall examine each nomination paper and shall record on it his decision accepting or rejecting the same, and, if a nomination paper is rejected, shall state in brief his reasons for such rejection, *e.g.*, that it does not comply with the requirements of any particular rule or that it has arrived after the latest date and time fixed for the receipt of nominations.

13. If more nomination papers than are allowed by the proviso to rule 10(3) be subscribed by the same elector, then only the permissible number of such nomination papers first received by the Returning Officer shall, if otherwise in order, be held to be valid, but if the Returning Officer is unable to determine the order in which such nomination papers were received by him, all of such nomination papers shall be held to be invalid.

14. Every nomination paper in respect of which any requirement of these rules has not been complied with, or which is not received by the Returning Officer on or before the latest date and time fixed for the sending in of nomination papers, shall be invalid.

N. B.—Temporary change of address of a voter shall be disregarded.

Scrutiny of nomination papers.

15. (1) On the date and at the time and place appointed by the Returning Officer under rule 24 for the scrutiny of nomination papers, every candidate and his proposer and seconder may attend, and the Returning Officer shall allow them to examine the nomination papers of all candidates which have been received by him and on which he has noted the result of his examination under rule 12.

(2) The Returning Officer shall decide all objections to his decision as well as all questions which may be raised as to the validity of any nomination, and his decision on any such question shall, subject to the provisions of rules 33 and 34, be final.

16. Any candidate may withdraw his candidature by notice in writing subscribed by him and delivered to the Returning Officer up to 3 o'clock in the afternoon on the date succeeding that appointed for the scrutiny of nominations. A candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be renominated as a candidate for the same election.

Election and voting.

17. (1) If in the case of an election, whether general or casual, to be held at any time under any clause of section 2, the total number of duly nominated candidates who stand for election or remain in the field after withdrawal of candidates does not exceed the number of vacancies, the Returning Officer shall on the completion of such scrutiny in the presence of the candidates, their proposers and seconders forthwith declare such candidate or candidates to be elected.

Should this contingency arise as a result of withdrawal under rule 15 communicated after the scrutiny no poll shall be held for the particular electorate concerned and the fact shall forthwith be notified in the *Calcutta Gazette*, but the formal declaration of result of its election shall be held over until the date of counting of votes in respect of other electorates.

(2) If the number of such candidates exceeds the numbers to be so elected, the Returning Officer shall—

(a) cause the names, qualifications, registration numbers and addresses of the candidates offering for election under each such clause to be entered alphabetically in the order of their surnames in a separate voting paper in Form III in the Appendix, and

(b) thereupon publish in the *Calcutta Gazette* and in such other manner as he may think fit the said names, with the respective qualifications, and addresses, classified according to the clauses of section 2.

(3) The Returning Officer shall by a date fixed under rule 24 send by registered post to each qualified elector concerned *at his registered address* one such voting paper (and no more) of candidates for election under the clause or clauses of section 2 under which he is qualified to vote, with an identification envelope in Form IV in the Appendix:

Provided that—

Such a voting paper with an identification envelope shall also be issued to such an elector (if any) to whom a voting paper has not been sent already, on his applying to the Returning Officer for the same at any time before the latest date and time appointed by him for return of voting papers. In no other case shall a voting paper be issued after the last date prescribed under rule 24 for the issue of voting papers nor shall a voting paper sent to a voter by post but returned undelivered by the post office be re-issued to him on its return to the office of the Returning Officer.

(4) No election shall be invalidated by reason of the non-receipt by any elector of a voting paper.

18. (1) Each qualified elector desirous of recording votes shall mark the voting paper issued to him with a *single* cross X (and no other mark) *in the proper column* against the name or names of the candidate or candidates (not exceeding the number of members to be elected) for whom he intends to vote (*A vote recorded otherwise than on the voting paper supplied shall not be accepted.*) No elector shall give more than one vote to any one candidate.

Explanation.—At a general election under clause (b) of section 2, a qualified voter entered on the electoral roll of a Division will be

entitled to give only one vote at the election from that Division. For the electorate under clause (d) of section 2, a qualified voter entered on the electoral roll of Calcutta constituency may vote for four candidates giving each candidate one vote. For the electorate under clause (h) of section 2, a qualified voter entered on the electoral roll of Tol constituency may vote for three candidates giving each candidate one vote.

(2) The qualified elector shall sign furnishing full particulars the requisite declaration printed on the identification envelope received with each voting paper, place the voting paper in that envelope close it and deliver it personally to or send it singly by post to reach the Returning Officer on or before the latest day and time fixed by him for the return of voting papers with the relative identification envelopes.

(3) No voting paper will be accepted unless it is enclosed in the identification envelope supplied with it, and any defect, *e.g.*, incompleteness in the entries required on the envelope or its receipt after the latest day and time fixed for its return with the proper voting paper shall invalidate both the envelope and the voting paper enclosed.

(4) Every voting paper in respect of which any requirement of these rules has not been complied with or on which a mark is placed in such a manner as to make it doubtful to which candidate the vote is given or on which the elector has placed any mark whereby he may be afterwards identified or on which an alteration or erasure occurs indicating a change of vote or which is not received by the Returning Officer on or before the latest day and time fixed for the return of voting papers, shall be invalid.

Counting of votes and declaration and publication of results of election.

19. (1) On receiving the identification envelopes the Returning Officer shall divide them into separate batches according to the different electorates concerned and shall examine the envelopes in each batch separately as regards the completeness or otherwise of the particulars required to be entered thereon, and shall record his decision "rejected" on any identification envelopes which are incomplete in any requisite entry, mark thereon the incompleteness of entry and place them in safe custody for inspection at the counting of votes. The distinction of divided batches and sets shall be maintained throughout the entire process of counting of votes.

(2) The Returning Officer shall place the identification envelopes which are complete in requisite entries which he provisionally accepts as containing valid voting papers without opening them in a separate ballot box for each electorate.

20. (1) The Returning Officer shall attend for the purpose of counting the votes on such date or dates and at such time and place as may be appointed by him under rule 24.

(2) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting.

(3) The Returning Officer shall show all identification envelopes whether accepted or rejected to the candidates or their representatives for examination of the propriety of their acceptance or rejection, and dispose of any objection taken to his decision in the manner prescribed in sub-rule (5).

(4) The accepted identification envelopes in sets where so divided under sub-rule (1) of rule 19 will then be opened in the presence of the candidates or their representatives appearing under sub-rule (2)

and the voting papers will be separated from their covers which will be kept aside from view and the Returning Officer will thereupon proceed to examine the voting papers to see whether they have been filled up correctly in respect of every requisite particular. He shall record his decision "rejected" on every voting paper which is found to be defective in any respect and indicate thereon with reference to rule 16 the ground of rejection very briefly. The remaining voting papers will be deemed as accepted. Each convenient batch of voting papers, whether accepted or rejected, will be presented in separate sets where so divided to the candidates or their representatives present for examination of the Returning Officer's decision.

(5) If any objection is taken to his decision of acceptance or rejection of any identification envelopes or voting papers, such objection shall be decided at once by the Returning Officer, whose decision shall, subject to the provision of rules 33 and 34, be final.

(6) The Returning Officer shall separate or cause to be separated the accepted voting papers from those that have been rejected and keep them in separate bundles. The identification envelopes originally rejected and those provisionally accepted when separated from their enclosed voting papers shall also be kept in separate bundles. All these bundles of voting papers and identification envelopes will be placed in safe custody for disposal under rule 22.

21. (1) When the counting of the votes of each electorate has been completed by the conduct of the operation on one or more days as necessary the Returning Officer shall, subject to the provisions of section 2, and of the subsequent portion of this rule, forthwith declare the duly qualified candidate or candidates, as the case may be, to whom the largest number of valid votes has been given to be elected.

(2) When an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the said candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

(3) When a candidate elected for a particular electorate by operation of sub-rule (1) happens subsequently to receive the highest number of valid votes of another electorate he shall be allowed to choose for which of the two electorates he shall serve and the choice once made by the candidate shall be final.

When a seat of a particular electorate remains unfilled by the operation of this sub-rule or becomes vacant by the refusal of the elected candidate to serve, such refusal being signified before his name is published in the *Calcutta Gazette* under rule 23, the seat may be filled by that one among the other candidates willing to accept office who has received the highest number of votes among unsuccessful candidates of the electorate affected at the election. If there is no unsuccessful candidate a fresh election shall be held to fill the vacancy thus created.

The Returning Officer shall determine which candidate should be declared as elected under this sub-rule and announce the results as soon as possible after the counting of votes.

The declaration in this case may be made either in the presence of the candidates or their representatives if present or merely by notification in the *Calcutta Gazette* under rule 23.

(4) The Returning Officer shall immediately report the results of the elections to the President. Should the election fail to secure members with the requisite qualifications required by section 2 in any case, the defect in respect of each electorate should at the same time be reported for the information of the President along with any defect in the number of candidates that offered for election and the want of candidates willing to accept office in circumstances contemplated in paragraph 2 of sub-rule (3).

22. Upon the completion of the counting of votes and after the results have been declared by him, the Returning Officer shall seal up the voting papers with their identification envelopes and all other documents relating to the elections and shall retain the same for a period of six months and thereafter cause them to be destroyed.

23. The Returning Officer shall as soon as may be after the election publish the names of the candidates declared elected in the *Calcutta Gazette*.

24. The Returning Officer shall appoint and shall notify in the *Calcutta Gazette* and in such other manner as he may think fit such date or dates or latest date, as the case may be, and, if necessary, such time and place as may be deemed suitable, for each of the following operations of an election, namely:—

- (a) the receiving of nominations under rule 11;
- (b) the scrutiny of nomination papers under rule 15;
- (c) the sending of voting papers with the relative identification envelopes under rule 17;
- (d) the receiving of voting papers with the relative identification envelopes under rule 18; and
- (e) the counting of the votes under rules 20 and 21.

The dates appointed must ensure the completion of the election, in the case of a general election in ample time before the expiry of the term of office of the sitting members and, in the case of a casual vacancy under section 7, sub-section (1) resulting from the death or resignation of a member or from the operation of rule 35, within two months prescribed by section 8.

Report of results of elections by the President to the Local Government.

25. On receipt of the report under rule 21 (4), the President shall forthwith report to the Local Government the results of all elections for publication in the *Calcutta Gazette*. He shall at the same time report what seats, if any, of any electorate could not be filled by election stating the reasons for the same. If the election from any particular electorate fails the Local Government shall order a fresh election and in case the second election also proves abortive, the Local Government shall appoint the requisite number of members. The members so appointed shall thereupon be deemed to have been elected from that particular electorate.

Election of President and Vice-President under clause (a) of section 2.

26. Within one month from the date of publication of the names of the members elected and appointed under section 2, whichever is the later, a meeting shall be held for the election of President and Vice-President of the Council. The date of such meeting shall be fixed by

the outgoing President or Vice-President and necessary notices issued by him to all the elected and appointed members at least 15 days before the date fixed for the meeting.

The members present shall elect one of their member to preside at the meeting as their Chairman. The Chairman shall be duly proposed and seconded and must not be a candidate for the office of President or Vice-President.

27. If only one member is proposed and seconded as Chairman, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by show of hands or by ballot.

If the votes for two or more members proposed as Chairman of the meeting are equal, then the selection of one of them shall be decided by lot.

28. The election of the President of the Council shall proceed as follows:—

- (a) Any member present may propose a candidate by name for the office of President.
- (b) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.
- (c) If there is only one candidate duly proposed and seconded for election, the Chairman shall forthwith declare such candidate to be elected.
- (d) If there be more than one such candidate for election as President, the Chairman shall hand to each member present a voting paper in form V in the Appendix in which the names of the candidates who have been duly proposed and seconded shall be entered, and shall ask each member in turn to record his vote, at a table so placed that no other person can overlook him, by placing the mark x in the place provided for the purpose in the voting paper, opposite the name of the candidate for whom the member intends to vote, and to sign his name on the back of the counterfoil of the voting paper.
- (e) The voting paper shall be invalid if the mark x is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply.
- (f) Each member after placing the mark x on the voting paper shall fold the counterfoil so as to conceal the votes recorded, sign his name on the back of the counterfoil and then hand the paper to the Chairman. Without such folding of the counterfoil or signature the voting paper shall be invalid.
- (g) The Chairman shall have the right of participating in the election of the President and shall similarly record his vote.
- (h) As soon as all the voting papers have been delivered to the Chairman, he shall, in the order hereinafter specified,—
 - (1) reject any voting paper which is unsigned or of which the counterfoil is not properly folded as prescribed in clause (f);
 - (2) tear off the counterfoils containing the signatures and place them apart from the voting papers proper;

- (3) reject any voting paper which is irregularly marked;
 - (4) read out the names of the candidates against which the mark x has been validly made;
 - (5) count the votes; and
 - (6) declare the candidate to whom the largest number of votes has been given to be elected as President of the Council.
- (4) In the case of an equality of votes the Chairman shall have a casting vote.

29. The Chairman elected under rules 26 and 27 shall preside at the meeting for the election of the Vice-President as well and the same procedure shall apply as for the election of the President.

30. In the case of a casual vacancy occurring in the office of the President, the vacancy shall be filled by an election held within 21 days of its occurrence and the procedure laid down in rule 28 shall be followed. The Vice-President shall preside over such a meeting unless he is a candidate for the office of President. If the Vice-President is absent or is a candidate for such office, the members shall select one of their number, who is not a candidate for the office in accordance with the procedure laid down in rules 26 and 27, to preside over the election.

31. In the case of a casual vacancy occurring in the office of the Vice-President, the vacancy shall be filled by an election, to be held, within twenty-one days from the date of occurrence of the vacancy, at a meeting in which the President or, in his absence, a person, who is not a candidate for the office of the Vice-President and is elected by the members from among themselves in accordance with the procedure prescribed in rules 26 and 27, shall preside. The election of the Vice-President shall be held in accordance with the procedure prescribed in rule 28.

32. The name of the person elected as President or Vice-President shall be forthwith reported to Government by the Chairman of the meeting, for publication in the *Calcutta Gazette*.

Finality of decisions of the Local Government.

33. The Local Government may, of its own motion or on objection made within three months from the date of the election, declare any election to the Council to be void on account of corrupt practice (*e.g.*, bribery, undue influence, personation, publication of false statements) or any other sufficient cause, and may call on the electorate affected to make a fresh election within a specified date, and any decision of the Local Government under this rule shall be final.

34. The decision of the Local Government on any question that may arise as to the intention, construction or application of these rules shall be final.

Vacation of seat.

35. If a registered practitioner having been elected or nominated a member is found guilty of infamous conduct in any professional respect and his name is removed from the Register of Registered Practitioners, the Council shall, at the same time, declare his seat to be vacant.

The President shall report the fact to the Local Government and the vacancy shall be filled like a casual vacancy within two months by fresh election or nomination as the case may be, under sections 2 and 8 in the manner prescribed by these rules.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

12. The District Health Officer or a Sanitary Inspector may order that any person, who has in his opinion been exposed to infection from cholera, shall take such drugs in such quantities as may be specified by the District Health Officer or Sanitary Inspector or shall submit himself to anti-cholera inoculation within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 11 without the permission of the District Health Officer or a Sanitary Inspector.

14. The Board shall provide free of charge suitable places, with necessary attendants, medicine, diet and other necessities for persons isolated under regulation 11:

Provided that a private individual may provide places certified by the District Health Officer as being fit for the purpose of such isolation.

In addition to the details as required on the reverse, information is given below under the following heads:—

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular step which the municipality has taken or has agreed to take in order to make good the deficiency.

(b) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

(c) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.

(d) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when each position is otherwise than the ordinary surplus would indicate.

(a) The ordinary surplus is not insufficient.

(b) By the general revision of assessment which will take effect this year it is anticipated that the income of the municipality will be considerably increased due to the addition of new holdings.

Column 12 of application.

(1) Rates on holdings at $7\frac{1}{2}$ per cent. on the annual value of holdings.

(2) Water rate at $7\frac{1}{2}$ per cent. on the annual value of all connected holdings and of all holdings situated on roads supplied with water pipes and at 6 per cent. on holdings situated on roads not so supplied while holdings beyond a radius of 750 feet from the nearest stand-pipe being exempted from water-rate.

(3) The conservancy rate is fixed at the uniform rate at $6\frac{1}{2}$ per cent. on the annual value of holdings.

(4) Lighting rate is not in force for the present till electricity is introduced.

(c)

Outstanding loan.	The date when taken.	Purpose.	Annual charges.	Amount still payable.
			Rs. a.	Rs. a.
(1) Old loan—				
Rs. 60,000 ..	26-3-1935	Extension of water-supply.	4,810 10	47,886 9
(2) New loan—				
1st instalment— Rs. 15,000	1-2-1935	Independent water-supply scheme.	1,096 10	13,433 12
2nd instalment— Rs. 85,000	1-8-1935	Do. ..	6,214 8	77,495 0
3rd instalment— Rs. 15,000	16-3-1936	Do. ..	1,072 12	13,949 8
4th instalment— Rs. 85,000	3-7-1936	Do. ..	6,079 1	80,580 11

The instalments are paid regularly on the prescribed dates.

(d) Besides under the proposed scheme of independent waterworks for which the loan is to be taken, there will be nett saving in the recurring expenditure amounting to Rs. 27,544 per year from water-rate alone. This figure has been obtained from the average actual collections under water-rate for three years minus the annual expenditure (recurring), viz., Rs. 17,500, the figure given by the Chief Engineer, Public Health Department, in his revised estimate for independent water-supply scheme, i.e., Rs. 45,044 minus Rs. 17,500 = Rs. 27,544. If the collections are more favourable the amount of saving will come up to Rs. 30,000 approximately. This amount after meeting all overhead charges not only covers the amount of annual instalment of the old loan, new loan, and proposed loan as well as depreciation fund, but will have a surplus which sufficiently guarantees the repayment of the loan.

Act XV of 1932), the Governor is pleased to make the following rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities in supersession of the rules published with notification No. 904P.H., dated the 3rd March 1936:—

1. *Definition.*—In these rules—

- (b) “Chief Engineer” means the Chief Engineer, Public Health Department.
- (c) “Sanitary Board” means the persons for the time being appointed, either by name or by official designation, by the Provincial Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

2. *Preparation of sketch project.*—(1) Whenever a municipal authority desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch project roughly showing its scope and estimated cost.

(2) Such sketch project may be drawn up—

- (a) by the Chief Engineer, at the request of the municipal authority; or
- (b) by any individual or firm approved by the Chief Engineer; or
- (c) with the permission of the Chief Engineer, by the District Engineer, for whose services an application should be made to the District Board; or
- (d) by one of the officers of the municipal authority or by an officer specially appointed by such authority for the purpose, subject in either case to the selection of such officer being approved by the Chief Engineer.

(3) In cases (b) to (d) referred to in sub-rule (2), the sketch project, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) The Chief Engineer shall, in all cases, act as adviser of the municipal authority.

3. *Submission of sketch projects, statement and application.*—(1) when it is desired to impose water-rate by any scheme which involves the laying of pipes or other similar apparatus, or when there is no proposal for the imposition of water-rate and when the estimated cost of any scheme, or of any larger scheme of which it forms a part, is more than Rs. 10,000, or when the estimated cost of a scheme is Rs. 10,000 or less and the financial assistance of the Provincial Government to such scheme is desired, the municipal authority shall submit the sketch project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(2) The Sanitary Board, after considering the project, shall forward it to the Department of Public Health and Local Self-Government of the Provincial Government with such recommendations as they think fit, and, if the project relates to local areas under the control of two or more local authorities, with proposals for the distribution of the cost.

(3) When there is no proposal for the imposition of water-rate and when the estimated cost of a scheme is Rs. 10,000 or less and when no financial assistance from the Provincial Government is required and when the scheme does not form part of a larger scheme of which the estimated cost is more than Rs. 10,000 the administrative approval of the provincial Government shall not be necessary, but the Chief Engineer shall be consulted and the scheme, with a copy of Chief Engineer's opinion on it, shall be submitted to the Commissioner of the Division for information.

4. *Conditions precedent to obtaining administrative approval of the Provincial Government or the approval of the Commissioner to a project.*—In order to obtain the administrative approval of the Provincial Government or the approval of the Commissioner of the Division, as the case may be, to any such project, the municipal authority shall satisfy the Provincial Government or the Commissioner of the Division:—

- (1) that the cost of maintenance of the projected work can be met by the municipal authority from municipal revenue;
- (2) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be specified by the Provincial Government;
- (3) that the work can be done effectually in the manner and for the cost proposed, and
- (4) that the work, if any, designed to be carried out through, under or over any Communication and Works Department road or land has been approved by an officer of that department not below the rank of Executive Engineer.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.*—(1) When the administrative approval of the Provincial Government has been obtained to the project in the case where such approval is necessary (but in no case before such approval, except with the previous sanction of the Local Government),

the municipal authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

- (a) apply for the services of the Chief Engineer, or
- (b) with the previous sanction of the Chief Engineer—
 - (i) entrust the work to an individual or firm; or
 - (ii) apply to the District Board for the services of the District Engineer; or
 - (iii) cause the plans and estimates to be prepared by one of its own officers, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(2) In case (a) referred to in sub-rule (1) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the municipal authority at the same time undertakes to pay for each such scheme the fees laid down in rule 32.

(3) In case (b) referred to in sub-rule (1), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(1) The detailed plans and estimates shall, on completion, be forwarded by the municipal authority in duplicate to the Sanitary Board through the Commissioner of the Division, together with the particulars required by rule 8 and a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form.

(2) If the scheme is for the improvement or extension of existing waterworks, the particulars mentioned in sub-rule (1) shall be accompanied by a statement showing in detail the financial position of the water-supply fund of the municipality.

(3) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(4) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(5) The Sanitary Board shall submit the scheme as finally drawn up to the Department of Public Health and Local Self-Government of the Provincial Government for approval, with an expression of their opinion (a) on its merits and (b), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the municipal authority shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 311 of the Act regulating house-connections, with explanations of any variation proposed from the model house-connection rules.

8. *Publication of the scheme after its approval by the Provincial Government.*—(1) When the scheme has been approved by the Provincial Government, it shall be published in the *Calcutta Gazette*, and locally in accordance with the provisions of section 507 of the Act, with the following particulars, namely:—

- (b) an estimate of the cost of carrying it out;
- (c) an estimate of the cost of maintaining it;
- (d) the source from which the cost will be met;
- (e) the amount of the loan, if any, required for the scheme, the annual instalments by which such loan will be repayable, and the number of years required to repay it; and
- (f) when several local authorities are concerned, the distribution of the loan between those authorities.

(2) Where the scheme is for providing or improving the water-supply, the following additional particulars in respect of each municipality concerned shall be also published in the manner described in sub-rule (1), namely:—

- (a) the total annual charge to be incurred by reason of the water-supply and to be met by a water-rate;
- (b) the percentage of such water-rate on the annual value of holdings;
- (c) the average incidence of such water-rate per head of the population.

9. *Final sanction of schemes after considering objections, if any.*—After the expiry of six weeks from the date of the publication under rule 8, and after considering any objections or suggestions that may be received, the Provincial Government may either sanction or reject the scheme as published, or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board, who, after considering the scheme and proposals, shall return the scheme to the Provincial Government together with the opinion of the Board on the proposals; and the scheme and opinion so returned shall be published and disposed of by the Provincial Government in the manner provided in rule 8 and in this rule.

10. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Provincial Government under rule 9.

11. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the municipal authority has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the municipal authority that the sanctioned detailed scheme will require material alteration, the municipal authority shall forthwith submit to the Provincial Government for sanction a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

- (a) in the case of schemes prepared and carried out by the Municipal Engineer under rules 5(1)(b)(iii) and 14(2)(a), by that officer and shall be scrutinized by the Chief Engineer.
- (b) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an engineer specially appointed for the purpose under rule 5(1)(b)(i) or 5(1)(b)(ii) and rule 14(2)(a), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.
- (c) in the case of schemes prepared and carried out by the District Engineer under rules 5(1)(b)(ii) and 14(2)(b), by that officer and shall be scrutinized by the Chief Engineer.
- (d) in all other cases, by the Chief Engineer.

12. *Taking over of complete supervision and control by Chief Engineer.*—(1) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Provincial Government make a grant amounting to Rs. 50,000 or more or to half the total cost of the scheme or more. The municipal authority shall undertake to pay the fees specified in rule 34 before work on the scheme is begun.

(2) In other cases the municipal authority may request the Chief Engineer to take over supervision and control of the work, and on the municipal authority undertaking to pay the fees specified in rule 34, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(3) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (1) or sub-rule (2), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health and Local Self-Government Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be recovered by the fees specified in rule 34 hereof, or shall be met by the municipal authority by payment of such fees as the Provincial Government may from time to time prescribe.

(4) In addition to the above fees the municipal authority shall bear all law charges on behalf of the Provincial Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the municipal authority under sub-rule (4), if, in the opinion of the Provincial Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(5) The municipal authority shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the municipal authority as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Provincial Government for decision.

13. In the case of a scheme the sketch project of which has been approved by the Commissioner of the Division under rule 3(3) the detailed plans and estimates shall be also prepared by the municipal authority in the manner provided in rule 5 and shall on completion be submitted to the Commissioner of the Division for final sanction. No work shall be commenced on such project unless the detailed plans and estimates have received such final sanction.

14. *Conditions as to detailed engineering supervision.*—(1) Where the projected work is estimated to cost more than Rs. 10,000, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Provincial Government under rule 9.

(2) Save as otherwise expressly directed by the Provincial Government—

- (a) the work shall be carried out under the supervision of an Engineer, either permanently employed by the municipal authority or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or
- (b) with the previous approval of the Chief Engineer, arrangements shall be made with the District Board for the carrying out of the work under the supervision of the District Engineer and his staff; or
- (c) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 12.

(3) In cases (a) and (b) referred to in sub-rule (2), the work while in progress shall be subject to inspection and control by the Chief Engineer.

15. *Report by municipal authority to the Chief Engineer in case of small schemes.*—In the case of schemes estimated to cost Rs. 10,000 or less, the municipal authority shall report, to the Chief Engineer, the agency by which the schemes will be carried out, and shall follow the instructions issued by him in the matter.

Tenders and Contracts.

16. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (a) or clause (b) of rule 14(2), the procedure provided by rules 17 to 29 shall be followed.

17. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the municipal authority, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 32, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

18. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bills of quantities, forms of tender, and other documents or plans referred to in rule 17 relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (i).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (ii).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (iii).—The standard form of a contract shall be adopted, wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (iv).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

19. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

20. *Approval of plans, drawings, specifications, forms of tender, etc., by the municipal authority.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the municipal authority in meeting. Whenever such authority desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

21. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the municipal authority, who shall attend in person at the office of such authority, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

22. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the municipal authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

23. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

- (i) sent to the Chief Engineer; or
- (ii) in the case of works carried out under rule 14(2)(a) under the supervision of a Municipal Engineer approved by the Chief Engineer as being competent to advise on these questions, handed to that officer; or
- (iii) in the case of works carried out under rule 14(2)(b) under the supervision of the District Engineer, handed to that officer, for check and scrutiny:

Provided that, in case (ii) or (iii), the Municipal Engineer or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

24. *Return of tenders after check and scrutiny.*—The Chief Engineer, the Municipal Engineer, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the municipal authority with his remarks and recommendations.

25. *Consideration of tenders.*—The municipal authority shall in meeting consider the tenders when checked and scrutinized under rule 24, and either accept one of them provisionally or, if the municipal authority thinks it desirable, refer the matter to the Chief Engineer for advice.

26. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

27. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

28. *Provisional acceptance and submission of tenders to the Chief Engineer.*—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the municipal authority:

Provided that, in case of a difference of opinion between the municipal authority and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the municipal authority so desires, be referred to the Chief Engineer, Department of Communication and Works, Communication and Buildings Branch, Bengal, whose decision shall be final and binding on all parties.

29. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the municipal authority at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

30. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 14(2)(c) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Department of Communication and Works, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

31. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Provincial Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

32. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the municipal authority:—

Nature of work. 1	Fees. 2
(a) Preparation of detailed estimates and drawings for projects and schemes.	2 per cent. on the estimated cost of the works.
(b) Preparation of contract, drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(c) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	$\frac{1}{2}$ per cent. on the first Rs. 20,000 of the estimated cost and $\frac{1}{4}$ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (a) detailed estimates and drawings and (b) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The municipal authority shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Provincial Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the municipal authority: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

33. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch project.*—When the preparation of a sketch project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the municipal authority shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

34. *Fees for supervision and control of works under rule 12.*—*(1)* The fee payable for the supervision and control of works by the Chief Engineer under rule 12 shall be 8 per cent. on the actual cost of the work.

(2) The percentage prescribed in sub-rule *(1)* shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule *(2)*.

Dacca, the 27th September 1938.

Second Forecast of the Cotton Crops of Bengal, 1938-39.

(Note.—On an average of the five years ending 1936-37, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The

“late” crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—Since the issue of the first forecast in August last, the weather has been generally favourable for the growth of the early crop. The present outlook is reported to be promising on the whole.

Area sown.—The area sown is reported to be 87,379 acres this year as against 93,583 acres (revised) in the corresponding forecast of last year.

Director of Agriculture, Bengal.
